MEMORANDUM FOR:

OCI

SUBJECT:

Advisory Committee on Foreign Language Publications

1. You will recall our discussion with regard to providing representation in the substantive offices for the activities of the Foreign Language Publications Committee which was established in pursuance of NSCID-16. It seemed to us at the time of that discussion that the major interests which need to be taken into account are those of OHR and OSI, and I believe you are agreeable that, in general, you should depend on their joint representatives on the subcommittees to take care of your interests. This is of course in addition to the fact that as chairman of the main committee I would try to keep in mind those same interests.

2. For your information, therefore, there is attached a copy of the first and second minutes of the meetings of the Advisory Committee which, you will note, deal with the subject of subcommittees. [redacted] of OHR, it has been agreed, will serve as the joint representative of OHR and OSI on the subcommittee on Procurement, and [redacted] of OSI, the joint representative on the Exploitation and Reference subcommittees. We will depend upon the Offices in the first instance taking up problems having to do with these subjects with the before-named officers. In addition, it is understood by the Advisory Committee, as noted in the first minute, that at any time additional representatives of the research or consumer interest will be welcome in any of the subcommittees or the main committee.
